

# KanexPro®

## HDMI 4K USB 2.0 Streaming Capture box w/ HDMI Loop out and cable

The CON-GAMECAPL offers the powerful capture performance found in the CON-GAMECAP with the added performance of featuring an HDMI loop out that allows for consecutive capture and viewing on an HDMI equipped display.

**MPN: CON-GAMECAPL**

The **KanexPro CON-GAMECAPL** is a video capture device that can capture both HDMI video and HDMI audio, sending audio and video signals to a computer in order to preview or record video content. Suitable for video game console capture, educational recordings, medical imaging, or streaming with the use of an action camera. Featuring a Loop out port, you can connect to both a television display and a computer at the same time allowing you to both stream and play at the same time with no loss of performance.

### Capture High Definition Content in 1080p

Record in up to 3840x2160 resolution (4k) at 30Hz with hardware up-scaling/down-scaling. The dongle will accept 4K/30Hz signals from a gaming console and will automatically down-scale the output video to 1080p/30 HD HDMI video signals if needed.

### Applications:

Best used for Console Gaming, educational streaming, PC gaming, and general recording.

## GAME, STREAM AND CAPTURE

The KanexPro CON-GAMECAPL

- 1. Console and Computer Gaming:** Connect your next gen gaming system to a computer and record or stream your gaming sessions. Easily use a streaming service or recording application to capture and edit your content.
- 2. Live Streaming:** When connected to an Action camera featuring an HDMI output the dongle will make the camera operate like a webcam. Improve the quality of your stream by using a better-quality camera.
- 3. Educational Distribution:** Can be used to record student presentations, lectures, or virtual meetings.
