

4K60Hz HDMI Cascading Extender Kit over Cat6 — 70M

4K@60Hz | Cascade up to 10 RX | Auto EDID | IR Bi-directional | 3-Year Warranty
 MPN: EXT-HDMICAS70M

The KanexPro EXT-HDMICAS70M cascading HDMI extender distributes 4K@60Hz HDR to up to 10 displays simultaneously — each on its own Cat6 run up to 70M, each independently managing resolution and EDID. Ideal for digital signage networks, multi-room installations, and any environment where the same 4K content must reach many displays.

The cascading architecture scales by adding EXT-HDMICAS70MRX receiver units (sold separately) without additional transmitters. Each receiver auto-adapts to the connected display's native resolution and EDID — mixed-resolution environments work seamlessly. Bi-directional IR and ARC S/PDIF included. Backed by KanexPro's 3-year warranty.

 4K@60Hz HDR 4:4:4	 Cascade Up to 10 RX	 70M Cat6 Single Cable	 Auto EDID Per Display	 3-Year Warranty

KEY FEATURES

- Zero latency 4K@60Hz HDR over single Cat6 to 70M — cascade up to 10 additional receivers
- Supports up to 10 add-on RX units (EXT-HDMICAS70MRX) for multi-display distribution
- Each receiver independently manages display resolution and EDID — auto-adapt for mixed displays
- HDCP 2.2 and EDID support
- Bi-directional IR pass-through (20–60KHz) — IR blasters included
- ARC S/PDIF digital audio de-embedded output
- Plug-and-play with zero configuration
- Compact aluminum chassis: 106×99×26.2mm, 210g TX/RX
- 3-year KanexPro parts and labor warranty

SPECIFICATIONS

HDMI	2.0 HDCP 2.2
Max Resolution	4K×2K@60Hz (4:4:4 HDR)
Cascade	Up to 10 additional receivers (EXT-HDMICAS70MRX)
Cable	Single Cat6 / Cat6a / Cat7 per run
Max Distance	70M (230 ft.) per Cat6 run
EDID	Per-receiver independent management
IR	Bi-directional 20–60KHz (TX/RX included)
Audio	ARC S/PDIF de-embedded on RX
Power	DC 5V–12V TX <4W RX <4W
Dimensions	106×99×26.2mm (TX & RX)
Weight	TX 210g RX 210g
Temp	Operating: -20–60°C Storage: -30–70°C
