

3G SDI 2X1 Switch

2x1 HDCCTV (SDI) Switcher

MPN: SW-SDI2X1

The KanexPro SDI switcher is a 2 input, one output switcher designed to switch two SDI sources to one SDI monitor or display. For optimum performance the SDI switcher is loaded with re-clocking technology to drive the signal at longer distances and supports SDI, HD-SDI and 3G-SDI signals.

Ideally used with SDI based HDCCTV surveillance systems, rental & staging facilities, post-production, TV studio, digital cinema, or other A/V applications where you need to switch and split from an SDI camera or other device equipped with 3G/HD/SD-SDI outputs to one SDI-compliant display or video processor.
