

USB 2.0 Active Extension Cable - 16ft. (4.9m)

Extend USB peripherals up to 16ft.

MPN: USBEXT16FT

The KanexPro USB 2.0 active extension cable is a premium grade cable engineered with active IC built-in, providing full buffer for all USB signals going in-and-out of the PC to peripherals. It maintains perfect signal integrity and routes the extension beyond the standard limitations of USB length.

The extender also acts as a transparent USB hub and buffers all upstream and downstream data traffic for both low speed and high-speed USB devices offering full compatibility.

FEATURES

- Extends USB peripherals up to 16 feet (4.9m) without any CAT5e boxes or external power
- Supports USB 1.0, 1.1, and 2.0 standards
- Data transfer speeds up to 480 Mbps
- True Plug and play solution
- No external power required
- Available in 16ft. (4.9m)
